DULL TRADE IN STOCKS

EVERY RUMOR FROM EUROPE PUT SPECULATORS IN A FRIGHT.

Dealings Confined to Small Totals, with Only One Share Active-Local Markets Are Firm.

At New York, yesterday, money on call was easy at 1461/2 per cent.; last loan, 14; closed at 14/01/2 per cent.

Total sales of stocks were 89,595 shares, including the following: American Tobacco, 4,000; Burlington, 8,800; Chicago Gas Trust Receipts, 3,700; Reading, 3,400; St. Paul, 6,800; Western Union, 3,500; New Jersey Cen-

Undeviating dullness marked the dealings in stocks yesterday from start to finish. The total shares sold fell several thousand under 100,000, and dealers and brokers found their occupation practically gone. Tobacco was the only stock deart in to the extent of 19,000 shares, and that was a selling movement. In the railway list outside the coalers the only stock which varied its price to the extent of a point was Burlington, and its net change was only 1/2. Such a market offered no inducement, except to the strictprofessional element and to that only for a very quick turn on an almost infinitesimal margin. The whole market continued to be dominated by the war situation in Europe, and the opening adhered close-ly to the level already established for the lossburg coal, \$4.50; Greene county nut, \$2.50; Elossburg coal, \$4.50; crushed coke, \$3 per 24 bu; day in London. The indisposition to trade in stocks seemed to be based on the expectation that the Turks were sure to win ultimately and that Greek successes only served to delay the ending of the war. which would come by the interposition of

sponsible source in the street that the Turks had captured the town of Larissa. The falsity of this report was quickly ascertained and the monetary activity came to an end. In spite of the inanition of the market, it is noticeable that the bears are very chary of making any wholesale onslaught or putting out new short lines. The indications point also to a large decrease in the existing short interest in the ast few days, the loan rate for most stocks being much reduced, except where manipulated, as in the case of the coalers. The movement upward of New Jersey Central and Delaware & Hudson is attributed to the bidding up of the loan rate by inside interests and the driving of the shorts to cover. The features of the narrow market were all found in the specialties, where the activity was due in each case to a special cause. In Tobacco the decline was due to reports from the West of hostility to the company's product of labor organizations. In American Spirits it was occasioned by an unfavorable interpretation of the failure of the controlling interest to have a quorum at the annual meeting and the consequent lack of a report on the business and condiwas wholly caused by manipulation tactics. Leather preferred showed a recovery from its recent depression on covering of shorts. The net result of the day's trading was a general gain of a fraction. Spirits preferred was a loser by 11/4 after erratic nuctuations, and the 6 per cent. bonds of the company broke 4 points and recovered Tobacco lost a point net on the day.

The bond market displayed a fair degree of activity, with values generally firm. American Spirits sixes and Wabash firsts. Detroit and Chicago extension, were notable exceptions and sustained severe losses. Government bonds lacked feature, but were generally well held on dealings of

POOR TRADE CONDITION

POSSIBILITY OF GENERAL WAR AF-FECTS AMERICAN BUSINESS.

some Improvements in Milling Industries-Weekly Reviews of Dun & Co. and Bradstreet.

NEW YORK, April 23.-R. G. Dun & been wholly buried in the sea, markets might have been affected less than by the outbreak of war in Europe. Like fire in the heart of a crowded city it raised the quesout of it. To this possibility and not to the direct influence of either Turkey or Greece on the world's money or produce markets was due the excitement in grain and stocks. As the unknown is magnified American markets were much more flighty than European, where the possibilities have been discussed and partly discounted for months. But the uncertainty remains and will affect movement of money and staples until it disappears, creating a larger demand for American products at higher prices, causing hasty speculative selling of securities at times, but also more continuous buying foreign investors, and not improbably influencing the attitude of foreign powers on questions important to this country. Wheat rose 6c from Thursday to Monday, and has retained most rise. Since Russia and the Danubian states will be likely ship wheat scantily, especial needs and much higher prices being possible there, Pork-May larger share of the requirements of western Europe may naturally be drawn from this country, and the chance of a war between great powers has the more influence because supplies held are not large. While Western receipts do not yet increase and in three weeks have been but 5,641,001 bushels, against 5,933,199 last year, Atlantic exports begin to gain slightly, amounting to 1,190,329 bushels, flour included, against 1,085,764 last year, and for three weeks have been 3,588,170 bushels, against 3,453,679 last year. But the great increase is still in corn, of which the price has scarcely advanced, though Atlantic exports were 4.189,-146 bushels for the week, and for three weeks 10,221,151 bushels, against 2,624,732 last year. Already the exports for the crop this year have been 33,000,000 bushels larger than Atlantic exports of wheat and flour, and may soon exceed the total exports of 4.50c; 3 Ridgewood A—Centennial A. 4.50c; 4 Phoenix A—California A. 4.44c; 5 Empire A—Franklin B. 4.38c; 6 Ideal Golden Ex. C—Keystone B. 4.31c; 7 Windsor Ex. C—American B. wheat and flour from both coasts. Cotton tricts yielded nearly 500,000 bales for increased acreage in other sections is gener-

ally reported. The past week, like others of late, has witnessed the starting of operations by sevunfinished products are lower, the demand not yet equaling the supply. Eastern works also have orders for 15,000 tons of steel rails. Complaint and proof that the demand for products is deficient blinds many to the fact that the actual work in progress, largely on the heavy orders for beams, billets, nails and sheet bars taken when the pools broke up, is of greater volume than for a long time. Large sales of copper are reported at 111/2c, with

production of 18,283 tons in March. The end of stipulated curtailmen has been reached by some cotton mills, and nearly by all, and since the auction sale some bleached goods have been slightly advanced, but actual buying does not increase and print cloths do not improve. Sales of wool have been largely of foreign, reports being swelled by arrivals of quantities sold some time ago, and imports at Boston for the week were 32,000 bales. For the three chief cities sales were 34.036,800 pounds in three weeks, 20,271,300 being foreign, against 15,906,100 in 1892, including 7,574,000 foreign. But manufacturers are doing scarcely anything and orders for goods improve very little, though for somewhat better grades Failures for the week have been 218

the United States, against 238 last year, and 21 in Canada, against 44 last year.

Bradstreet's Review. NEW YORK, April 23.-Bradstreet's tomorrow will say: The change in conditions

turbances to resist midsummer wages reductions. The bituminous coal mining industry is worse off than the anthracite with rumors of strikes, which promise to have an unfavorable influence on other than the iron and steel industries. Trade in wool is quieter. There is less life in the wholesale dry goods trade and little relief has been experienced, notwithstanding the large auction sale of cotton goods last week, buyers continuing to supply immediate needs only. The tendency more settled weather has stimulated retail demand, more particularly at the North-west, notably for dry goods, hardware and millinery. The general tendency of the Mississippi flood to subside has created a better feeling, but not even the recent Agricultural Department census records all the damage done. Country roadways have begun to improve, which benefits interior merchants. Exports of wheat (flour included wheat) from both coasts of the United States and from St. John, N. B., this week, amounted to 1,654,658 bushels, against 1.344,000 last week, 1,128,000 in the third week of April, 1896; 2,431,000 in the like week of 1895, 2.727,000 in 1894 and as compared with 2.507,000 in the corresponding week of 1893, Exports of Indian corn amount to 4,769,315 of 1896, less than half as many in the corresponding week of 1895 and as compared with 1,642,000 in the third week of 1894. There are 216 business failures throughout the United States this week, compared with 195 last week, 240 in the third week of April, 1896, 223 in the corresponding period of 1895, 201 in 1894 and with 186 in the like

AFTER BEARS HAD AN INNING THE PRICE WAS SENT UP TO 75C.

Bad Crop Reports, War News and Cash Business Caused the Fluctuations-Other Markets Firm.

CHICAGO, April 23.-Wheat was again very feverish and unsettled to-day. The majority of traders on the bull side, however, whooped things up to such good effect that the market closed about 11/2c higher. Bad crop reports, war news and cash business were features marking sudden and violent fluctuations. All other markets borrowed more or less strength from wheat, Corn and oats advanced about 4c each and provisions 21/265c. In wheat a firm foreign market helped to start trading at an advance. Shorts were the best buyers, but Nine Transfers, with a Total Consid- there was a big line of long wheat for sale at around the opening price which was dealt out with a liberal hand half an hour and the effect of it was to force the price down le per bushel from the best figures of the early trading. When that scalping line was out of the way the bulls came into the market with a rush, but found so little for sale that the price soon recovered the most of its previous decline. Liverpool showed no change in quotations at the opening and 14d advance later. New York reported buying orders there from the continent this morning, the first for a long time. Chicago receipts were nine cars. English consols were unchanged, which indicated the unshaken feeling in the United Kingdom that the war in Europe would be confined to the present combatants. That and the comparative heaviness of the Northwest receipts, 345 cars, against 342 last year, were the bearish factors in the early news. May opened at 74% 674% c, against yesterday's close of 73% c. It declined to 73% c under the hammering it received, then recovered to 73%c. A report that Kansas had issued an estimate of conditions of the State, making the condition 80, was the cause of a strong spurt soon afterwards, which put up the price from around 73%c for May to 74%c, but when it was found this was on a parity with the government heavy supply; creamery, 15@16c; dairy, 9@12c. report the advantage was lost. The market became very strong near the close and was making its best prices for the day about fifteen minutes from the close. Shorts covered liberally on the remarkable strength of outside markets, notably St. Louis, and on the tone of the war news, May finally selling up to 751% and closing strong at 747% 275c. July closed at 74% c bid.

Corn was firm in the main on a moderate business, but had some intervals of weakness. The predictions of rain to-day and to-morrow made offerings scarce. The market became quite strong near the close in sympathy with wheat. Exports were liberal, \$20,000 bushels. May opened unchanged at 24%c and sold between 24%c and 24%c, closing at 24%c bid. Oats were firm all day, wet weather caus ing most of the strength, although wheat | turpentine steady at 30c. and corn were also influential. Shorts were

free buyers and a good general business was transacted. Exports were 127,000 bushels. May opened a shade higher at 174c, tion if a general conflagration may spring | sold between 17%@17%c and 17%c, closing at 171/2c bid. Provisions were fairly firm, but dull. Buying orders were in excess of offerings all day, but not sufficiently to put spirit in trading. The market was influenced by the strength of grain. Price fluctuations were

very narrow. At the close May pork was 5c higher at \$8.52; May lard, 2½c higher at \$4.15 and May ribs a shade higher at bales, bales; exports to Frances, 1,435 \$4.70@4.721/2. Estimated receipts for Saturday-Wheat

Wool. BOSTON, April 23.-The Boston Commercia Pulletin will say to-morrow of the wool market: The market is dull, the only sale of washe fleeces is 5,060 pounds of Michigan X. Prices are firmly held, however, in spite of the small sales of domestic wool. Liberal deliveries of foreign wool continue. The most notable sale was of the line of the newly arrived Cape wool to cost 38@40c clean for clothing and combing. Australian, Montevideo and Argentine wools have also been taken freely at the old rate. The mills are all busy. The largest wool scouring plant in New England is running 116 hours a week, night and day. Last week was the best Easter week that the retail clothiers have known for years. The sales of the week are 2,465,000 pounds domestic and 3,010,600 pounds foreign, against 1,775,000 domestic and 7,352,000 foreign last week and 1.180,000 domestic and 635,000 foreign for the same week last year.
